International Program Announcement

Faculty of Science, Kasetsart University

Subject: Undergraduate Research Matching Fund (URMF) for the 2026 Academic Year (Funding for Undergraduate Research Projects in the International Program, Faculty of Science, Kasetsart University)

The International Program, Faculty of Science, Kasetsart University, has a policy to support undergraduate research conducted by students in the international program and to promote the exchange of research project knowledge among undergraduate international programs within the Faculty of Science, the details are as follows:

1. Objective

1.1 To improve the quality of undergraduate research projects (International Program).

1.2 To encourage students to present their research projects at undergraduate academic conferences (International Program).

2. Financial Support

The program offers funding for undergraduate research projects, with a maximum grant of 15,000 Baht per project.

3. Procedure

3.1 The supervising professor and the student applying for the grant must prepare a research proposal with a work plan and budget, and submit it to the program.

3.2 The program staff will review and evaluate the proposal before submitting it to the program's management committee for consideration and further submission to the Dean for approval.

4. Policy Scope

4.1 To be eligible for the research funding, the student must be enrolled in the undergraduate International Program, Faculty of Science, from the 3rd year onward, and must be registered for the project/thesis course in the academic year the grant is applied for.

4.2 Students who have already received funding from other sources are not eligible for this grant, unless the amount received is lower than the total grant offered by the program. In such cases, students can apply for the difference.

4.3 A student can apply for this research funding only once.

5. Application Process

Process	Date
	Second Semester
1. Apply through the online system and print the form from the system. Attach the project proposal and budget plan and submit them to the program staff at the International Relations Office, 2nd floor, Chulabhorn 60th Anniversary Research Center.	September 14, 2026 – September 30, 2026

6. Obligations

6.1 Students applying for the grant must present their work in the form of a poster at the undergraduate academic conference (International Program). The abstract must be submitted through the system (follow program announcements for further details).

6.2 This funding is specifically for the project advisor and the student who jointly prepared the research proposal. For the change of the student or the research topic, a formal request must be submitted to the program management committee for approval.

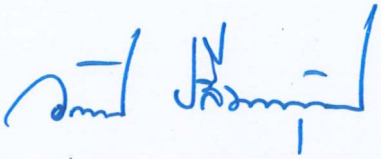
6.3 Project advisor must collect all receipts all receipts for expenditures and be prepared for internal auditing.

7. Funding Disbursement Guidelines

The full grant will be paid within 30 days after the research project is presented to the external experts.

The final decision regarding the funding will be made by the Program's Steering Committee.

Announced on: September 14, 2026



(Assoc. Prof. Dr. Wanchai Pleumphanuphat)

Dean of the Faculty of Science
